

## Royal Sovereign Accessories

### **Front Feed Assembly RSFF-1400/1650**

#### Front Feed Assembly

The Royal Sovereign front feed assembly is an optional accessory designed for both our 1400 and 1650 series laminators. This assembly will support a large roll of printed material straight from your inkjet printer. Perfect for Vehicle Wrap applications or when long lengths of material are being laminated.

#### Features

- Easy attaches to the front of the laminator
- Reduces kinking or other damage to roll printed material
- Less handling of roll printed material
- Can be used as an additional film supply shaft

### **Rear Wind Up Assembly RSWU-1400/1650**

#### Rear Wind Up Assembly

The Royal Sovereign Rear Wind Up assembly is an optional accessory designed for both our 1400 and 1650 series laminators. This assembly will wind up long runs of material after laminating. Perfect for Vehicle Wrap applications or when long lengths of material are being laminated. No more having finished material falling to the floor where it could become kinked, scratched or damaged after the lamination process.

#### Features

- Easy attaches to the rear of the laminator
- Reduces kinking or other damage to laminated material
- Less dust and dirt build up usually caused by material touching the floor
- Reduces time and handling in the cutting room
- Clutch geared for speed control
